

Dear Valued Patients,

The safety and health of our patients and employees at our practice are always a top priority. As public health officials respond to the spread of the COVID-19 strain of Coronavirus, we want to update you on the most recent recommendations from the American Dental Association, Oregon Dental Association and the greater dental community.

It is their recommendation that all dentists nationwide postpone elective and non-essential dental care for the next three weeks and concentrate only on emergency care. While we have been taking every precaution to provide your dental care needs in a healthy and safe environment, and our dedicated team would prefer to continue to serve your dental needs, we will be following the recommendations to serve the greater good.

Our office will be checking messages regularly, and if you have a dental emergency requiring assistance, please do not hesitate to call. If you have an upcoming appointment you will be receiving contact from our office to reschedule for a future date.

As we go through this public health challenge, please know that we are here to support you. We will continue to keep you updated on the dental community and we look forward to continuing your dental care very soon. If you have any questions or concerns, please call our office at 503-636-2525.

Wishing everyone good health,

Dr. Nicholas Dose
